- It is a platform for sharing information about class activities and academic updates.
- Available as a web page and mobile application.

Activities

GNU / Linux Users Group

Coordinator and core member of the GNU / Linux Users Group that spreads awareness about Free and Open Source Software. A number of workshops and sessions have been organized on various FOSS technologies within the college and in other colleges too.

Cognizant Student Club

Leader and active member of the Cognizant Student Club. A number of activities are organized that help students improve their hard and soft skills and bridge the gap between the college and corporate.

Guitarist

Freelance guitarist/singer at the6.in, the surprise planners. Also part of a band called Strings of Morpheus, that plays at various college fests and other events in and around the state.

Accomplishments

Paper Presentation

Presented a paper on "A Novel Mechanism for Disaster Management". It won the first prize at Agnitio 2016, a technical symposium.

Coding and other events

Won a number of prizes in coding, quiz and ad-zap events organized within and outside the college.
